

Adsync is a purpose-built digital media management solution.
Manage, schedule and distribute dynamic media content to any screen via a web-based interface.

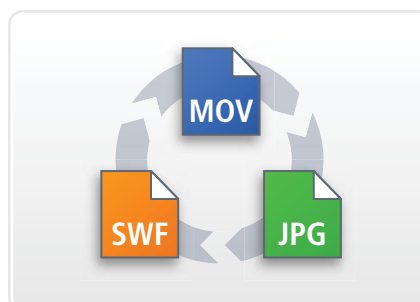

Target multiple devices

Adsync will play media on any mix of screen sizes, resolution and aspect ratio including video walls and LCD screens in any size.

Integrate with any format

We've built the system to manage still images, animation and HD video content yet it has the flexibility to integrate with almost any format.

Manage from anywhere

Upload and manage media, change groups, schedule events all via a simple yet powerful web based interface.
