46" VIVID SLIMLINE

High impact on a low budget. The **Vivid Slimline** kiosk offers a cost effective interactive touchscreen kiosk or media screen.

With its large format portrait screen, this digital kiosk solution is ideal for high traffic areas and wayfinding around entertainment complexes, airports, museums, casinos, retail centres, universities and hospitals. It can be used as a freestanding kiosk for occasions such as trade shows or exhibitions, or installed fixed in place or wall mounted unit depending on your requirements.

The **Vivid slimline** is the optimal choice when space is limited with a very small footprint. The Slimline can be easily updated via a web based system the displayed to develop custom messages tailored to the kiosk audience.
